BLUE DEVIL

Introducing:

BLUE DEVIL
STYLISH
LEAH GORHAM
COLUMBIA
BONNIE BRAE

THE HOUSE OF RECENT INTRODUCTIONS

J. R. & C. T. LARUS
67 Wyndwood Road
West Hartford 7, Conn.

PLEASE READ BEFORE ORDERING

We are again offering what we consider the cream of the newer varieties. Each year we grow about 100 of the year's American and Canadian new introductions, and also test almost the same number from Europe, Australia and New Zealand. From these we select those which we feel are particularly worthy, holding some over for another year's trial, and discarding the remainder. Those we select make fit additions to the catalogued list of Recent Introductions which have stood the test of another season's growing. Our aim is to present a catalog which includes practically all of the most worthy varieties introduced in recent years.

While tastes are bound to differ, there are certain outstanding varieties which in our opinion are worthy of special mention as being at the very top of the gladiolus world. The names of these are underlined. There are several brand-new varieties which probably belong in this select class, although our experience with them is too limited to make us willing this year to assign them this definite top rating; these are indicated by an asterisk (*) placed before the name. Blooming season and the color class of each variety are given in parenthesis. In general, the NAGC and NEGS classifications have been followed, although a few apparent inconsistencies have been adjusted.

In our description of each variety we try to furnish a guide as to how it has performed, backed up in most cases with actual measurements. Our stock is clean and high-crowned, and we fill orders in a way we feel will please you. We sell 10 bulbs or bulblets at 8 times the single price (or 4 times the rate for 2) and 100 bulblets at 8 times the rate for 10; 5 at the 10 rate and 25 at the 100 rate. Because our growing space is limited, we do not undertake to supply over 10 bulbs or 100 bulblets of a variety to a customer. We never substitute without permission. Shipment will be made by prepaid parcel post about the end of March.

Cash discounts are given for all orders over \$5. On orders from \$5 to \$10, subtract 5% discount; from \$10 to \$20, subtract 10%; and over \$20, subtract 15%. If you prefer not to deduct your discount, we will make it up in extras that will please you. The five 1951 Introductions are not subject to discount.

SEEDS AND SEEDLINGS

Each season we make many crosses. If we had more time and space we should plant every seed, but with our defined limits we have surplus to offer. Stock of some items is limited, so please give us several alternate choices. If you plant seeds as soon as the ground can be worked and never let them dry out, it is easy to get good results. The unbloomed seedlings are small bulbs, but under normal care most of them should bloom. Every one will give a thrill, and there is always the chance of discovering a worth-while variety.

SEEDS

(packets of 20 seeds of any cross are 50¢ each)

Abigail x Lavender Prince	Lavender Queen x Myrna Fay
Abu Hassan x Huntress	Lovely Mary x Crinklette
Aladdin x Voodoo	Marlene Both x Lavender Prince
Annamae x Crown Orchid	Maskerade x Abigail
Annamae x Huntress	Maskerade x (Elizabeth the Queen x Huntress)
Annamae x (Huntress x Gen. MacArthur)	Myrna Fay x Blue Beauty
(Arethusa x Aladdin) x Snow Princess	(Oriental Pearl x Blue Beauty) x Huntress
(Arethusa x Myrna) x Huntress	(Oriental Pearl x Eliz. the Queen) x Huntress
Atom x Twinkles	Pactolus x Golden Flute
Barbara Dee x Abigail	Peggy Ann x Crinklette
Barbara Dee x Huntress	Persian Rug x Daisy Mae
Benjamin Britten x Elizabeth the Queen	Pure Gold x Color Marvel
Cecily Anne x Perpetuum	Red Charm x Myrna Fay
Daisy Mae x Circe	Reg. Leahy x 46-BF-A (greenish cream)
Daisy Mae x Elizabeth the Queen	Rose O'Day x Abigail
Eglantine x Huntress	Rose Red x Huntress
Fair Lady x (Huntress x Minuet)	Rose Ruffles x Huntress
Firegleam x E. K. Both	Royal Blue x Blue Devil
Firegleam x 47-O-B (tall yellow)	Salman's Glory x Huntress
Gen. MacArthur x (Huntress x Algonquin)	Snow Princess x Marlene Both
Heart O'Gold x Cecily Anne	Snow Princess x Salman's Glory
Huntress x Lavender Queen	Snow Princess x Spic & Span
(Huntress x Minuet) x Abigail	Spic & Span x Huntress
Huntress x Ravel	Wedgwood x Heart's Desire
Huntress x Snow Princess	White Wings x 44W-9 (large white)
Joyful x E. K. Both	K11-45-6 (early purple) x Lavender Prince
(Lavender Prince x Huntress) x Eliz. the Queen	44W-9 (large white) x Eclipse
Lavender Queen x Huntress	44W-9 x Firegleam

Mixed seeds (25 seeds for 50¢)

UNBLOOMED SEEDLINGS

(10 small bulbs of any cross are \$1)

Aladdin x Attitash
 Aladdin x Elizabeth the Queen
 (Algonquin x Mermaid) x Attitash
 Attitash x (Sharchris x Myrna)
 E. C. Cole x K58-45-1 (pink with blotch)
 E. C. Cole x (Gen. MacArthur x Minuet)
 E. C. Cole x Myrna Fay
 E. C. Cole x Sharchris
 E. C. Cole x (Snow Cruiser x Rosea)
 (Fair Angel x Rosa van Lima) x Attitash
 Huntress x Sharchris
 Huntress x (Snow Cruiser x Huntress)
 Margaret Fulton x Burma

Margaret Fulton x Gen. MacArthur
 Marlene x K58-45-1
 Max Reger x K11-45-6 (early purple)
 Meriden x Sharchris
 (Parnassus x Corona) x Attitash
 (Parnassus x Corona) x Huntress
 (Rosea x Blaze) x Attitash
 (Snow Cruiser x Wings of Song) x Attitash
 Snow Princess x Sharchris
 (Stella Antisdale x Red Charm) x Gen. MacArthur
 K44-45-1 (large salmon) x Aladdin
 K58-45-1 (pink with blotch) x Cherry Jam
 K58-45-1 x Meriden

NEW INTRODUCTIONS

This year we are offering for sale five 1951 releases. Two of them are our own seedlings, one is a seedling we have purchased, and two we are listing for the introducers. All five seedlings have been thoroughly tested and two have received trial garden approvals. Our own seedlings have made an excellent record. We did not have enough Blue Devil last year to send it to the trial gardens, but it has an outstanding record at the eastern shows. Stylish has an amazing trial garden record. Leah Gorham, Columbia, and Bonnie Brae were among the best of over 100 seedlings that we grew on trial this past summer.

1951 Release
 Early Midseason

Blue Devil
 (Larus)

Class 478
 Jeanie James x Ravel

In response to the heavy demand from those who have seen it, we are introducing our blue seedling this year despite a limited stock. This striking deep violet has made an excellent impression whenever exhibited. On the show table it appears to be unbeatable among the dark blues and a favorite of the public.

BLUE DEVIL is a clear deep violet, with a rose blotch on a conspicuous white throat — entirely different in appearance from any other glad we have seen. It grows to a height of 60" with a tall, strong stem that does not crook or fall over. The flowerhead is from 24" to 27" long with 18-21 buds and 7 open. The 4½" florets open flat, are strongly attached and place well. Propagation and germination are excellent and bulblets frequently bloom. A strong, healthy grower.

BLUE DEVIL has won in the blue classes whenever shown. It made a clean sweep of the 478 class both days at the 1950 Connecticut Show. Its record includes

1950 Connecticut Show	Award of Merit and Best Seedling
Most Popular Variety in the show by vote of the public. Received as many votes as the next three varieties combined.	
1950 Eastern International Show	"A" Rating
1950 N. E. G. S. Show	Award of Merit

BLUE DEVIL appears to be a long step forward in the search for a reliable, healthy blue. A picture of three spikes is shown on the front cover. Petal color (Ridgway—"anthracene violet") is indicated by stripe at base of page.

Prices for 1951	Large \$5.00	Medium \$4.00	Small \$3.00	Bulblets \$1.00
-----------------	--------------	---------------	--------------	-----------------

1951 Release
Early Midseason

Stylish
(Larus)

Class 440
Parents: unknown

STYLISH has compiled an enviable record in the trial gardens. After being tested in 5 different areas in 1949, it received an approval from the N.A.G.C. Trial Garden Committee. So far in 1950 it has received an 81 at the Rhode Island T. G., an 83.3 at the N.E.G.S. Michigan T. G., an 81.7 at the N.E.G.S. Washington T. G., and a Silver Medal Award with a score of 87 from the Canadian Growers Council T. G. No variety has ever been approved in so many national trial gardens.

The color is medium pink shading to a creamy pink throat with a small deep pink dotted blotch at the back. The 5" florets are heavily ruffled, strongly attached and of good substance. One of the trial gardens reported a spike 59" tall, with 23 buds, a 30" flowerhead, and 10 5 $\frac{3}{4}$ " florets open, but more normal performance is 52"-55" with 18-21 buds and 6-7 florets open on a 24"-27" flowerhead. Placement is excellent and we have never seen a crooked spike.

STYLISH is one of the loveliest pinks we know and one of the easiest to grow. Health is excellent — no disease reported in Florida tests. It is a heavy propagator and a free bloomer from all sizes.

1951 Retail Price	Large \$2.00	Medium \$1.50	Small \$1.00	Bulblets \$0.25

1951 Release
Midseason (85 days)

Leah Gorham
(Gorham)

Class 450
American Commander x Liberator

Under seedling number 41852 this variety was approved a year ago by the N.A.G.C. Trial Garden Committee after a two-year test. A study of the reports from the individual trial gardens shows that it performed very well in all areas.

The 4 $\frac{3}{4}$ " florets, which are light red with a clean white throat, are striking and very attractive. They are strongly attached to a 26"-28" (30" reported by one trial garden) flowerhead. Of the 18-22 buds, 5-7 open in excellent placement. The florets are lightly ruffled and of medium heavy substance. The color is bright and clear with no flecking. The 55"-60" spikes are strong, and no crooking has been reported.

Propagation is good and bulblets grow very well. Spikes from medium bulbs were almost the same as from large bulbs. The variety is healthy and an easy grower. Of the large number of seedlings and named varieties that we grew this year, LEAH GORHAM was probably the most consistent producer of good spikes. For several years it has been used as a cut flower with excellent results in Salt Lake City, Utah, where many well-known varieties perform poorly due to the high altitude, heat, and dryness. To our knowledge it has only been exhibited in the color classes twice — at Binghamton and at Garfield Park — winning blue ribbons both times. We believe that this variety is an outstanding prospect for the cut flower market and that it is the best exhibition variety in the 450 class.

A seedling with such a good record and with so much promise would normally be introduced at a higher price than we have set, but we believe that by charging a low price we can obtain wider distribution than is otherwise possible and that in this way LEAH GORHAM will quickly receive the recognition that it deserves as one of the top new varieties.

Prices for 1951	Large \$1.00	Medium \$0.75	Small \$0.50	Bulblets 2- \$0.25
Starter Unit	5 Large, 5 Medium, 5 Small and 100 Bulblets			\$12

CO-INTRODUCTIONS

From Winston Roberts
Midseason

Columbia
(Roberts)

Class 407
[(Picardy x Puritan) x Myrna] x Corona

This variety is often referred to as an improved Corona. The florets are a lavender rose at the edges, shading into creamy white with a small creamy throat. The 4 $\frac{1}{2}$ "-4 $\frac{3}{4}$ " florets are ruffled and strongly attached in excellent placement with 6-7 open. Grows to a height of 50"-55" with 19-21 buds on a 24"-26" flowerhead.

While COLUMBIA is a little smaller than Corona, it appears to be better in many ways. It is a good healthy grower and a strong propagator. There is no crooking and it produces good salable spikes from all sizes. It will open to the top when cut in tight bud.

Corona was an immediate success after its introduction in 1940, but has been handicapped in recent years by poor resistance to disease. COLUMBIA would seem to have an excellent chance to supplant it as a top commercial. Winston Roberts, who has become one of the top hybridizers, believes that this is one of his best.

Bulbs \$5.00 each, any size	One Bulb and 10 Bulblets \$10.00
-----------------------------	----------------------------------

BONNIE BRAE

From Sydney Mode
Midseason

Bonnie Brae
(Barrett)

This seedling is introduced largely as a commercial, although it has a number of awards to its credit at the shows. The 5" florets are an attractive light pink, blending to a cream white throat. It is very healthy and a very reliable grower that grows 50"-55" tall with 18 buds on a 23"-26" head and 7-9 open in perfect placement. Highly recommended by several growers who have tested it as a dependable producer of good cuttable spikes.

Price: Large \$2.00 Medium \$1.50 Small \$1.00 Bulblets \$0.25 each when purchased with a Bulb

HAMLET

Our 1950 Release

Hamlet

Class 454

Reports on the performance of Hamlet in its first year have been highly favorable — in the N.A.G.C. 1950 Symposium it received the fourth highest number of points of all the 1950 introductions despite the fact that it was introduced at a higher price than most and had been grown by only a few of those voting.

The lightly ruffled 5" florets are a lovely dark red self with no markings. Substance is heavy and the wide-open florets do not burn, fleck or weather-spot. Attachment and placement are excellent. In our description of Hamlet last year, we said that it grows 50"-55" tall with 16-17 buds on a 23"-27" head and opens 6. Many spikes this year were considerably larger. The one pictured above was 62" tall, had 18 buds and opened 7 on a 29½" head.

Hamlet is exceptionally healthy and grows well from all sizes. It had a fine show record as a seedling. This year we planted it later and it missed the first shows, but won firsts at the last three shows (Binghamton, Boston and Peekskill) and was informal Recent Introduction Champion at Boston. Hamlet's fine color and regular growth habits make it a good commercial prospect.

1951 Price Large \$2.50 Medium \$1.75 Small \$1.25 Bulblets \$0.30

GENERAL LIST

The General List contains American, Canadian and foreign varieties which we have bloomed. For all foreign varieties, the country of origination is given after the name of the hybridizer except for the large introducers, Both (Australia), Burns (Australia), Errey (Australia), Konynenberg & Mark (Holland), and Salman (Holland). On foreign varieties, the first number after the name of the originator is the year of introduction abroad and the second number is the year the variety was first offered in this country. The descriptions of all varieties in this list are our own and are not copied from the introducer's catalog. All performance records are taken from our own files and are given to show exactly how they have grown for us. Flowerhead measurements are taken the first day open. When fully open, they will usually be 1"-2" longer.

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
ACE OF SPADES	(EM 554 Sisson 50)	This is the blackest of the better reds. Florets are a clear black red, shading a little lighter at the center. Grows 60" tall with 20 buds on a 28"-32" flowerhead and 3-6 5½" florets open.	\$4.00	\$3.50	—	—
ADONIS	(E 500 Woods 49)	Lightly ruffled white with a fine light pink throat line. One of the tallest and strongest growing of the whites, but the floret formation is not too good.	2.00	1.50	\$1.00	\$.20
ADORABLE	(EM 460 Woods 49)	Very pretty pale rose with a light rosy red blotch on a lighter background. Spikes grow up to 50" tall with 17-18 buds on a 24" head and 5-6 5" florets open. A very nice glad for the house.	3.00	2.00	1.00	.25
ALDERMAN	(M 462 Errey 49-51)	Tall strong-growing medium rosy red with a cream throat. Opens 8-10 5" florets in good placement.	—	—	1.50	.30
ALJECIN	(M 470 K & M 50-51)	This new one from Holland has a fine, clear rosy purple self-color that does not spot or fleck in adverse weather. Spikes are 55" tall with 20 buds on a 27" head and 7 plain 4¾" florets open.	.30	.20	.15	10- .30
ALZADA	(E 596 G. Wilson 50)	Smoky medium scarlet brown with a large cream throat. Clear color and quite attractive. A novelty glad that is a good grower.	2.00	1.50	1.00	.20
ANGELA LYNN	(M 400 Barrett 50)	One of the prettiest of the whites. The florets are ruffled with a cream throat. A strong propagator and easy grower. Spikes are 50" tall, with 20 buds on 26" flowerhead and 7 4½" florets open in excellent placement.	3.00	3.00	3.00	.35
ATHENE	(M 400 Kuhn 49)	Highly regarded as a commercial prospect due to its reliable performance. Grows 55" tall with 20-21 buds on a 26" flowerhead which opens 8 plain-petaled 4½" florets in good placement.	2.00	1.50	—	.20
ATLANTIC	(EM 422 B & P 46)	One of the best Dutch varieties. Florets are a fine clear medium orange, slightly deeper in the throat with a white line. A strong healthy grower that makes spikes 55" tall with 18 buds on a 27" flowerhead with 8-9 5" florets open. An excellent show glad.	.20	.15	.10	20- .25
AUGUST MOON	(EM 510 Rich 49)	Probably the largest of the yellows. The creamy yellow florets are over 6" in size. Spikes are tall, but seldom carry more than 14 buds.	2.00	1.50	1.00	.20
AURORA AUSTRALIS	(M 442 Harris, Aus. 48-50)	Attractive deep purple with a cream throat and a small medium red blotch. A reliable, easy grower that has an excellent show record in Australia.	1.75	1.25	.75	2- .35
AUTUMN QUEEN	(LM 416 Arnett 50)	Pale salmon shading to a light yellow throat. The florets are not too well formed and not a solid color, but the spikes are up to 6 feet tall with 17-18 buds on a 30"-32" head with 9 plain 5½"-6" florets open.	1.00	.75	—	2- .25

Name (Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
BENJAMIN BRITTEN (EM 466 K & M 48-49)	A distinct deep lavender with a small white throat line. An easy grower and a strong propagator. Spikes are tall and straight with 8 4 $\frac{3}{4}$ " recurved florets open.	.75	.50	.30	2- .15
BEROLINA (M 452 K & M 48-49)	Bright medium red with a large, striking white throat. Grows 57" tall with 19-20 buds on a 24" head and 6 5" florets open. A good grower that has excellent color appeal.	.30	.20	.15	10- .25
BIG JOE (LM 536 L. W. Wilson 50)	From Canada comes this scarlet with a deeper blotch and a white line. The florets are large and attractive. Spikes grow 55"-60" tall, with 16 buds on a 25"-27" flowerhead and 6 open. One of the better 1950 introductions.	3.00	3.00	3.00	.30
BLACK CHERRY (M 554 Rich 48)	Very deep red that rarely flecks or weather spots. A husky grower capable of making fine exhibition spikes, but the flowerhead is often a little short.	2.00	1.50	1.00	.20
BLUE BONNET (EM 476 Beardsmore 48)	One of the prettiest of the blues. Florets are a medium blue with a deeper violet blotch. Grows over 50" tall with 6-7 5 $\frac{1}{4}$ " florets open on a good flowerhead. Despite some misplacement, it is one of the better blues.	1.50	1.00	.50	.15
BLUE GIANT (E 576 Seed, Aus. 48-50)	This highly touted blue was one of the disappointments of the season. The florets are very large, the heads long and the color good, but the attachment is weak, placement irregular and health questionable.	—	1.50	1.00	.20
BLUE LAGOON (M 478 G. Snyder 46)	Tall, strong growing, fairly deep violet. Florets are clear and attractive but not wide open. Grows 60" tall with 20 buds on a 25" head and 6-8 plain 4 $\frac{3}{4}$ " florets open. Healthy and a good propagator.	.35	.20	.15	10- .20
BOISE BELLE (L 343 Roberts 48)	Distinctly different and very lovely. Medium pink at the edges blending to a light yellow center. Opens 8-10 ruffled 4" florets on a 26" flowerhead.	1.00	.75	.50	2- .20
BRIDAL ORCHID (EM 566 Carlson 50)	Probably the strongest grower of all the lavenders. Spikes are 55"-60" tall with 8 ruffled 6" florets open on a 30"-33" flowerhead. Basic color is a light lavender with a deeper veined blotch, but in some areas florets appear darker due to heavy streaking. An outstanding exhibition prospect.	3.00	2.50	2.00	.50
*BRILLIANT (M 436 Rowse, Aus. 47-50)	The performance of this little-known variety was a very pleasant surprise this year. The color is a bright scarlet with a slightly deeper throat. Spikes were 60" tall with 19 buds on a 30" flowerhead and 6-7 5 $\frac{1}{4}$ " florets open. Looked very nice.	2.00	1.50	1.00	.20
BRONZE KING (LM 582 Rich 46)	One of the most attractive of the smokies. Opens 6-8 large chocolate-colored florets on a good spike.	.50	.40	.30	4- .20 10- .40
BUSHFIRE (EM 486 Pupich, N. Z. 48-51)	A striking and attractive smoky. Florets are reddish plum at the edges, shading into deep salmon, with a large light yellow throat. Performed very well here in its first year and looked like one of the most interesting new smokies.	1.25	.75	.40	.15
CAPT. KIDD (M 452 Roberts 50)	A medium red, shading to a somewhat deeper blotch. Grew 55" tall, with 17 buds on a 24" flowerhead and opened 6 4 $\frac{1}{2}$ " florets of good substance.	3.00	2.25	1.50	.25
CATHERINE (M 542 Both 49-51)	A new Australian medium pink. Florets have some smoky streaking. Seems to be a good grower.	3.00	2.25	1.50	.30

CIRCE

ECLIPSE

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
*CECILY ANNE	(M 440 Errey 48-50)	One of the most outstanding foreign varieties. The $5\frac{1}{4}$ " florets are a lovely coral pink with a clear cream throat. Spikes are 50"-55" tall with 21 buds on a 26" flowerhead. Its ability to open 10-11 florets in excellent placement should make it one of the best show varieties.	4.00	3.00	2.00	.40
CHIEF PONTIAC	(M 524 G. Snyder 48)	A clear deep orange, slightly deeper in the throat. Opens 7 large florets on a 28"-30" head. The plant is very tall and occasionally falls over. Can make excellent spikes as in picture on back cover.	1.00	.75	.50	4- .25 10- .50
CHINOOK	(M 532 Lines 49)	A giant of the glad world. Florets are a lightly ruffled deep salmon, shading to a lighter throat. Substance is heavy and the spikes open 7-8 6" florets. Grows 60"-65" tall, with 18-19 buds on a 29"-31" flowerhead. A fine show glad.	2.50	2.00	1.50	2- .35
CIRCE	(EM 525 K & M 48-49)	This has one of the finest colors of any variety — a clear, deep orange with a cream yellow throat and a small scarlet blotch. Spikes were tremendous, being 55"-60" tall with 22-23 buds on a 30"-33" flowerhead and 7 $5\frac{3}{4}$ " florets open. An outstanding variety.	2.00	1.50	1.00	.20
CITATION	(LM 442 Beaton 49)	One of the tallest varieties we have grown. Spikes were 6 feet tall with 20 buds on a 33"-35" head. The $5\frac{1}{4}$ " florets, which are an attractive geranium pink with a creamy white throat, are a little small for such a large spike, but when field-grown for commercial use the proportions are in balance.	1.50	1.00	.50	2- .35

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
*CLARENCE D. FORTNAM	(M 440 Kadel 50)	This lovely blush pink has compiled an excellent show record and was one of the best 1950 introductions. Florets are heavily ruffled and of good substance. Spikes are 60"-65" tall with 20 buds on a 26" head. Opens 7-9 4 $\frac{3}{4}$ " florets in excellent placement.	5.00	4.00	—	.50
CLIVE	(M 416 Brown, N. Z. 45-50)	Nice clean light buff shading to salmon pink at the edges of the petals and to a light yellow throat. Grew 56" tall with 6 4 $\frac{3}{4}$ " florets open on a 24" flower-head. Quite attractive.	1.00	.75	.50	2- .15
COACHMAN	(M 430 Woods 49)	Medium salmon pink with a small creamy throat. Capable of producing excellent show spikes with 10 5" florets open on a long head. Stem a little short. Has been Grand Champion.	2.00	1.25	.75	2- .30
CONCERTO NO. 1	(M 432 Jenner, Aus. 48-51)	Medium pink with some deeper veining in the throat. Looks like a fine exhibition prospect. Grew 50"-55" tall with 19-21 buds on a 26"-30" flower-head and 7-9 5" florets open. One of the best from "down under."	2.00	1.50	1.00	.25
CONNIE G	(M 506 Woods 48)	Florets are a heavily ruffled deep cream of heavy substance. Grows 55" tall with 20-21 buds on a 27"-29" flowerhead and 6-8 5 $\frac{1}{2}$ " florets open. Very lovely and a fine show glad. Not a heavy propagator.	2.00	1.50	1.00	2- .30
<u>COTILLION</u>	(M 542 Butt 48)	An excellent show glad that opens 10 5 $\frac{1}{2}$ " florets in good placement. The florets are a deep pink with a cream throat — quite striking and attractive. Grows 60" tall with 19-20 buds on a 27" head.	.50	.35	.25	8- .25
CREAM FRILLS	(M 406 Jensen, N. Z. 48-50)	Pale creamy white shading to a cream throat. Florets are lightly ruffled and very attractive. Not a large grower, but very nice for decorative use.	1.50	1.10	.75	.15
*DOLLY VARDEN	(M 532 Harris 50)	This was one of the finest new varieties we tried this year — seems to be an improved Aladdin. The 6" florets are deep pink with a large cream throat. Grows 58"-60" tall with 6 of the 17-18 buds open on a 28"-31" head. Very attractive and a strong grower.	2.00	1.25	.75	.20
DRESDEN LADY	(EM 463 Watson, Aus. 48-51)	An odd one from Australia. The 5" florets are a medium rosy pink with a creamy throat bordered lavender and with a small deep lavender rose blotch. A good grower that is very different.	1.00	.75	.50	.10
*DR. PRYOR	(LM 551 Burns 46-49)	One of the huskiest and strongest growers. The florets are light red with a large cream throat and a small red blotch — very striking and attractive. Spikes are 60"-65" tall with up to 24 buds on a 29"-32" head and 6-8 large ruffled florets open. Seems to be an excellent all-around glad.	.35	.25	2-.25	10- .25
DYNAMO	(LM 536 Salman 48-50)	Large scarlet red with a deeper throat line. Grew 64" tall with 16 buds on a 28" head. A good grower but not a rapid propagator.	1.50	1.00	.75	.15
*ECLIPSE	(EM 536 Burns 48-49)	A clear light scarlet that is one of the finest foreign varieties we have grown. The florets are 6" or larger and very attractive. Spikes grow 60" tall with 18 buds on a 27"-29" head and 7 open. Has been excellent for us both years that we have grown it. See picture on page 9.	2.00	1.50	1.00	.25
ECSTASY	(M 460 Tonklin, Aus. 49-49)	Attractive coral rose pink with a light flame throat. The ruffled florets are 5" in size and the stretchy flowerhead holds 7 open.	3.00	2.25	1.50	.30

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
EIFFEL TOWER	(M 566 Both 47-48)	A strong-growing light rose lavender with a cream throat. Flowerhead is very long, with 7-8 large well-placed florets open.	.50	.35	.25	3- .15 10- .40
E. K. BOTH	(EM 530 Both 48-49)	One of the largest and strongest growing varieties. The 6½" florets are medium salmon with a light orange throat. Grows 55"-60" tall with 20 buds on a 30" head and 6 open. Attachment is slightly weak.	2.00	1.50	1.00	.20
ENCHANTMENT	(M 430 Fischer 50)	A very pretty ruffled medium salmon, shading to a cream throat. Not an exhibition type, but a nice attractive gladiolus.	.50	.35	—	10- .25
ESQUIRE	(M 536 Ficht 50)	Medium scarlet with a deeper throat. This new one is highly recommended. Spikes were 60"-65" tall with 23 buds, a 25"-27" head and 7 5½" florets open. Good substance.	.50	.35	.25	8- .25
EVANGELINE	(M 540 Palmer 48)	Aside from a tendency to misplace, this is one of the finest varieties in existence. Florets are a lovely light pink with a creamy throat. Spikes are 65" tall with 23 buds on a 29" head and 8-9 large florets open. Has produced some fine seedlings.	1.00	.60	.40	4- .25 10- .50
EVOLUTION	(M 466 Franklin, Aus. 48-51)	The most different and striking variety we grew this year. Florets are a deep lavender rose finely streaked on a white base. Spike was tall and had 5-6 large florets open on a 28" head.	—	—	.50	2- .25
EXCELSIOR	(LM 463 Rowse, Aus. 49-51)	Medium rose with a deep rosy red feather. Produced good spikes from freshly dug bulbs from Australia.	—	3.50	2.50	.60
EXPANSE	(LM 540 Hill, N. Z. 47-49)	Medium pink with a white rib in the middle of the petals and a cream throat shaded deeper around the edges. A tall strong grower with large florets.	.75	.60	.40	4- .25 10- .50
FIREGLEAM	(E 436 Jack 49)	One of the best. A bright and attractive light scarlet with a white throat line. Grows 62" tall with 20 buds on a 27"-29" head and 8 ruffled 5¼" florets open. Looks like the best of the early varieties.	.60	.40	.20	2- .15
FLORENCE NIGHTINGALE	(EM 400 Harris 47)	This has become a standard white for commercial and exhibition use. A healthy reliable grower that produces spikes up to 60" tall, with 23 buds on a 30" flowerhead and 7-9 5¼" florets. Will be widely grown for many years.	.25	.20	.15	5- .25 10- .40
FRIENDSHIP	(E 440 Fischer 49)	This lovely medium pink with a cream blotch is an outstanding commercial prospect. Its earliness, long flowerhead, and beauty make it the best early pink in our garden. Opens 7 4½" florets on a flowerhead up to 30" in length.	.50	.35	.25	4- .25 10- .50
*FROSTY	(M 520 Pruitt 49)	An outstanding prospect. The florets, which are a medium salmon orange with a light edge and a deeper blotch, are large and very attractive. Substance is excellent and spikes very good. This little-known variety should become very popular.	1.00	—	—	4- .25 10- .50
GARDEN GOLD	(LM 512 Rich 48)	A medium buff yellow with a deeper throat. A good strong grower that is one of the best deep yellows. Spikes are 60" tall with 17 buds on a 25"-28" head.	2.00	1.50	1.00	.20
GEORGE MAZURE	(M 566 Both 48-49)	A pale lavender with a cream throat. Florets are large and attractive. A foreign grower with whom we correspond speaks highly of it, but we have only bloomed it from small bulbs.	1.75	1.25	.85	2- .35

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
GIANT CYCLAMEN	(M 560 Higgins, Aus. 45-49)	Cyclamen or light rose florets with a deep rosy blotch. Appears to be a larger Miss Wisconsin. Grows 55" tall with 20 buds on a 25"-27" flower-head and 6-7 5½" florets open. A reliable grower that is very promising for commercial and exhibition use.	.50	.35	.25	3- .15 10- .40
GLAMOROUS	(M 524 G. Wilson 49)	Beautiful deep salmon orange with a cream throat. Large heavily ruffled florets on a well-balanced spike with 18 buds on 24" head.	2.25	1.75	1.00	.20
GLAMOUR GIRL	(LM 430 N. Burn, N. Z. 47-51)	An attractive light salmon shading to a buff salmon throat with a small scarlet blotch. Recommended for exhibition use. Grows 50"-55" tall with 18 buds on a 27" head and 8 5" florets open. One of the better foreign varieties.	1.75	1.25	.90	2- .35
GOLD CHEVRON	(EM 310 Beaton 50)	A truly lacinated, needle-pointed and highly ruffled light yellow self. The 4" wide-open florets are perfectly placed on a 20"-24" head with 16-18 buds. Opens up to 7. Very different and interesting. A strong healthy grower.	1.00	.75	.50	2- .25
GOLDEN ENSIGN	(EM 512 Billiald, Aus. 48-50)	A medium buff yellow with a small pale red blotch. Tall strong grower with 7-8 large florets open in good placement. Looks very promising.	1.00	.75	.50	.10
*GOLDEN FLUTE	(M 511 Hartman 50)	This new one has proven to be the best of the giant size yellows. The 6½" ruffled florets are pale yellow with a light red blotch. Grows 60"-70" tall with 18-19 buds on a 26"-29" head and 6-7 attractive florets open. An excellent show glad.	5.00	5.00	5.00	1.25 5- 5.00
GOLDEN FRAGRANCE	(EM 410 Lantz 46)	Light creamy yellow shading deeper in the throat. Grows 50"-55" tall with 16 buds on a 23"-25" head. The 5" florets have a distinct fragrance. This and Gwen are the best fragrant glads we know.	.50	.35	.25	4- .20 10- .40
*GORGEOUS DEB	(M 530 G. Wilson 49)	A very lovely ruffled medium salmon with a large light yellow throat. Produces fine spikes with 7-9 florets of heavy substance open. Very highly rated by most growers.	2.00	1.25	.75	2- .20
GRACE DARLING	(M 460 Harris 49)	Attractive light rose shading to a cream throat. Seems to be a reliable grower.	1.00	.75	.50	2- .25
GRAND MONARCH	(LM 562 Salman 48)	Bright deep rose shading to a purple blotch. A very strong grower for exhibition use. Grows 60"-65" tall with 17-18 buds on a 26"-29" head and 6-8 5½" florets open.	.30	.20	.15	15- .25
GWEN	(EM 560 Pickell 49)	Attractive medium rose that has a distinct fragrance — one of the two best fragrant glads we have grown. Spikes are 55" tall with 18 buds on a 25" head and 6-7 5" florets open. A promising commercial.	—	1.50	1.00	.25
HEART O' GOLD	(E 401 Fischer 50)	Pretty creamy white with a yellow throat petal. A nice grower that opens 6-7 ruffled 4½" florets in excellent placement on 23"-25" head. Its earliness makes it a very promising commercial.	1.00	.75	.50	2- .25
HEART'S DESIRE	(M 540 Fiedler 48)	In each of the three years since its introduction, this has been one of the best in our garden. The ruffled 5½"-6" florets are a lovely light pink blending to a cream throat. Grows 60" tall with 7-8 of 18-19 buds open on a 28" head. A healthy grower and free bloomer from all sizes.	.60	.50	.40	4- .25 10- .50

<i>Name</i>	<i>(Blooming Season-Class-Introducer-Year)</i>	<i>Description</i>	<i>Large</i>	<i>Medium</i>	<i>Small</i>	<i>Bulblets</i>
HENRI DE GREEVE	(LM 423 K & M 47-49)	Distinctly different. An attractive salmon orange shading to a buff throat with a red blotch. Opens 6-8 ruffled 5" florets on a 21-bud spike that is up to 28" long.	1.00	.75	.50	2- .15
HIHO	(M 432 Knight 48)	Clear medium salmon with a cream white throat. Opens 8-9 clear and attractive florets on a 28" head. Capable of producing good show spikes.	1.00	.50	.25	2- .25
HOLMWOOD SALLY	(LM 433 T. H. Wood, Aus. 48-51)	Orange salmon with a cream white throat and slight purple markings in the throat. Healthy medium-sized spikes.	—	.45	.30	2- .15
*JEAN GOLDING	(M 420 Blackler, N. Z. 48-51)	Very attractive salmon orange shading to a large orange yellow throat. Looked very promising here in its first year. Opens 6 or more 5" florets on a 24"-26" head. Fine color and a good grower.	1.00	.75	.50	2- .25
*JOAN'S LAVENDER	(EM 467 Watson, Aus. 49-51)	Quite different and lovely. The 5" florets are a pale rosy lavender with a deeper throat blotch. Opens 7-8 on a long head. Placement and straightness of stem are excellent. Received a First Class Certificate at Ballarat T. G. this year.	—	.75	.50	2- .25
*JOYFUL	(M 432 Coombs, N. Z. 45-48)	Lovely ruffled deep salmon pink with a light cream yellow throat. Opens 6-8 5" florets on a 25"-27" head. Excellent substance. Its beauty and reliable performance place it near the top.	.50	.35	.25	4- .25 10- .50
KATHY LEE	(EM 410 Fairchild 47)	Heavily ruffled lemon yellow with outstanding color value. Opens 8 wide-open 5" florets on a 25" head. Spikes are 50"-55" tall with 16-17 buds. Has been improving for us each year.	.75	.50	.35	2- .15
KITTYHAWK	(M 366 Both 43-48)	A lovely clear light lavender shading to a cream throat with a small darker lavender blotch. A top show glad from Australia. Opens 8-10 4½" florets on a 21-bud spike. Grows 55" tall with a 25"-27" head. Very good.	.35	.25	2-.35	10- .30
LADY MARIAN	(M 460 White 48)	An attractive light lavender rose capable of producing long spikes with 8 5" florets open. Particularly attractive when opened from bud indoors.	.50	.40	.20	10- .25
LA FAVORITE	(M 436 K & M 49-50)	Medium, brilliant scarlet with a white throat line. Rapid propagator and easy grower. Grows 54" tall with 19 buds, a 25" head and 6-7 lightly ruffled florets open. Bulbs usually split.	3.00	2.00	1.00	.25
LANCELOT	(EM 410 G. Snyder 49)	A pale medium yellow with a slightly deeper throat. Grows 60" tall with 18-20 buds on a 25"-27" head and 6-8 5¼" florets open. A nice all-around yellow.	1.00	.75	.50	2- .20
*LA VALLE	(LM 507 Lines 49)	Light cream with a light yellow throat and a smaller light red blotch. The 5½" florets are striking and attractive. A fine all-around glad that is highly rated by those who have grown it.	2.50	2.00	1.50	2- .35
LAVENDER MARIE	(M 566 Aus. 48-50)	Light rosy lavender shading to a buff throat with a small rosy feather. Quite different and attractive. Tall with a long flowerhead. Some tendency to peel.	1.50	1.10	.75	2- .25
LILA WALLACE	(EM 362 Fairchild 47)	A ruffled clear deep rose that is very similar to Burma but smaller and does not weather-spot so badly. Grows 55"-60" tall with 15-17 buds on a 27" head and 6-7 4" florets open. Very nice.	2.50	2.50	2.50	.30

<i>Name</i>	<i>(Blooming Season-Class-Introducer-Year)</i>	<i>Description</i>	<i>Large</i>	<i>Medium</i>	<i>Small</i>	<i>Bulblets</i>
MADAME BUTTERFLY	(LM 430 Billiald, Aus. 47-50)	A lovely buff pink blending to a light yellow throat. Florets are nicely ruffled, well attached and in excellent placement. Grows 57" tall with 18-20 buds on a 28" head and 7-9 5" florets open.	.75	.50	.35	2- .15
MADELINE HEFTY	(LM 462 Woods 50)	Medium lavender rose with deeper veined blotch on a light buffish throat. A good grower. Spikes 50"-55" tall with 18-19 buds on a 26" head and 7-8 lightly ruffled 5" florets open.	2.00	1.50	1.00	2- .30
MAGIC WAND	(LM 440 Lins 50)	Very pretty clear light pink shading to a large creamy white throat. Grew 57" tall with 19-20 buds, a 29" head and 6 lightly ruffled 5¼" florets open. Looked very nice, subject to health.	1.50	1.00	.50	—
MAJESTIC	(LM 524 Rowse, Aus. 45-49)	A tremendous grower. Spikes were 65"-70" tall with 18-19 buds on a 30"-34" head and 7 6" light scarlet florets open. Good despite some tendency to crook.	.50	.35	.25	4- .20 10- .40
MAJORETTE	(EM 440 Kroon 50)	Light pink shading to cream white throat with a small rosy pink blotch. Introduced as an early commercial. Strong propagator.	1.50	1.10	.75	.15
MAPLE LEAF	(EM 590 Pletcher 46)	Rosy brown with a pale scarlet orange blotch on a cream background. Grows 60"-65" tall with 16-17 buds on a 29" head with 6-8 6" florets open. Probably the best show glad in the A.O.C. classes.	.35	.25	2-.35	10- .30
MARGARET JEAN	(E 520 Ogilvie 50)	An attractive early orange that has made a fine record at the Canadian shows. A strong grower with 16 buds and a 28"-30" head.	1.50	1.10	.75	.15
MARKET QUEEN	(LM 317 Kuhn 47)	Very tall salmon buff with a deeper throat. Grows up to 6 feet tall with 17-19 buds on a 29"-31" head and 7-8 4¼" florets open. A fine show glad.	.40	.30	.20	10- .30
MELLOW MOON	(EM 416 B. Snyder 50)	Light yellow buff shading to a deeper throat with slight red veining. Grew 65" tall with 17-18 buds on a 27" head and 7 or more 5" florets open. Not quite so attractive for us as those shown by originator. A strong propagator.	3.00	2.00	1.50	.30
MEMORIAL DAY	(EM 570 Salman 48-49)	Deep rosy purple with a deeper throat and a small white line. Grew 50"-55" tall with 18 buds on a 25"-28" head and 6 5½" florets open. One of the best purples for us despite slightly weak attachment.	.60	.40	.25	4- .20 10- .40
MIGHTY MONARCH	(LM 552 Butt 46)	A giant. Florets are medium dark red. Grows 60"-65" tall with a 30" head and 20-22 buds. Opens 6-8 plain-petaled 5½" florets. A very strong grower that is a good show glad.	.25	.20	2-.25	20- .25
MOONGOLD	(M 410 Brogden, N. Z. 47-50)	Very attractive pale yellow with a slightly deeper throat. Florets are large and well placed. Opens 6-8 on a head of medium length. Some very good reports on it.	1.75	1.25	.75	2- .35
MY DEAR	(EM 440 Sisson 48)	Very attractive light pink shading to a cream throat with a small deep pink blotch. A nice reliable grower that is a very useful commercial. Grows 50"-55" tall with 18-19 buds on a 24"-26" head and 6 ruffled 5" florets open.	1.50	1.00	.75	6- .25
NANCY	(M 452 Arnett 49)	Clear bright medium red with a slightly deeper throat. A reliable grower and propagator that is recommended for commercial use. See back cover.	.25	.15	.10	10- .25

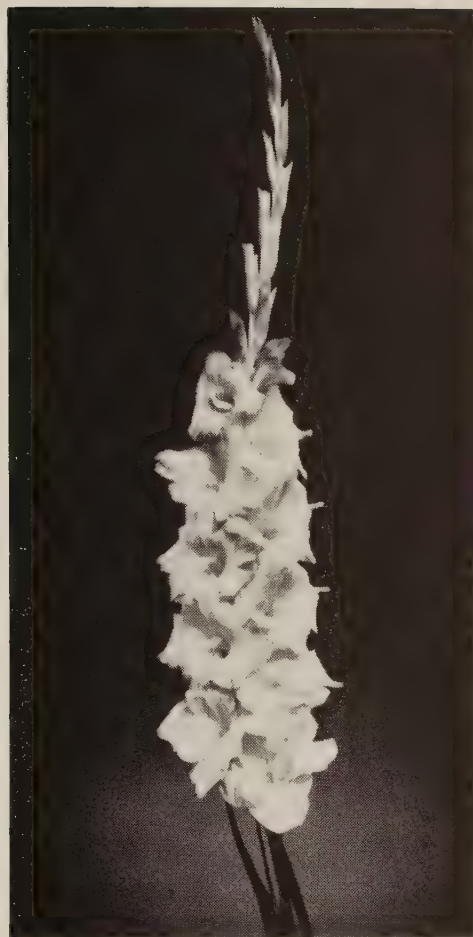

PACTOLUS

PARTHIENA

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
*NELLIE LOU	(M 542 Lines 49)	This year this variety produced one of the largest spikes we have seen of any variety. The 6" florets are a clear medium pink with a strawberry throat. Grows 6' tall with 16-18 buds on a 28"-30" head and 6-9 open. Very fine show glad.	2.50	2.00	1.50	2- .35
NILA	(M 562 Pruitt 47)	Deep rosy red with a fine clear color. Has regularly produced good spikes with 6-8 large florets open in good placement on a 25" head.	.20	2-.25	3-.25	10- .20
NORTHERN LIGHTS	(M 400 Stinson 49)	Attractively ruffled white shading to a light cream throat with a light rose feather. Grows 52" tall with 17-18 buds on a 25" head. Opens 6-8 5" florets of heavy substance.	1.00	.75	.50	2- .20
*NOWETA ROSE	(M 566 Fischer 50)	A clear rose lavender with a small deeper rose blotch. Its excellent growth and ability to open 8-10 florets in perfect placement have enabled it to make an outstanding record. As a seedling it was Grand Champion for us in 1949 at the New York Show. Grows 60" tall with 21-22 buds on a 25"-28" head. Very fine.	1.50	1.25	1.00	2- .35
OLUF	(LM 410 Pruitt 49)	Very attractive and different light buff yellow shading to a yellow throat with pale smoky pink blotch. Grows 60" tall with 16-17 buds on a 25" head. A glad that is distinctive and good.	- -	.35	.25	5- .25 10- .40

<i>Name</i>	<i>(Blooming Season-Class-Introducer-Year)</i>	<i>Description</i>	<i>Large</i>	<i>Medium</i>	<i>Small</i>	<i>Bulblets</i>
ON THE BEAM	(M 411 Krieg 47)	The best show glad in its class that we have grown. Florets are pale yellow with a small pale red blotch. Grows 65"-70" tall with 23-25 buds on a 29"-31" head and up to 11 5" florets open. Not the most beautiful, but one of the best show glads despite slight crooking.	.50	—	.25	2- .15
PACTOLUS	(EM 411 K & M 47-48)	An outstanding variety that has become very popular. The florets are light buff yellow with a scarlet red blotch. Striking and very attractive. Opens 7-9 ruffled 4½" florets. Spikes are 50"-55" tall with 22-24 buds on a 25"-28" head. See picture on page 15.	.35	.25	.15	10- .25
PALISADES	(LM 430 Beaton 48)	A light salmon with 5" plain-petaled florets. Spikes are straight and 65" tall with 17-21 buds on a 29"-31" head. Can win at the shows due to its ability to open up to 14.	.25	2-.25	—	10- .20
PARTHIENA	(LM 566 Hitchcock 49)	Striking deep lavender with a darker tongue on a cream background. Very popular at the shows. Grows 55"-60" tall with 7-9 ruffled 5¾"-6" florets open on a 27"-29" head. An excellent show glad that we rate very high. See picture on page 15.	.50	.35	.25	5- .25
PATRICIAN	(M 566 Scheer 46)	Lovely medium lavender self that opens 6-8 large well-attached florets. A heavy propagator. Despite occasional flecking and a medium length head it can produce very attractive spikes.	.50	.30	.20	10- .25
PEGGY	(EM 366 West 46)	Very attractive light lavender with small cream markings on a deeper lavender throat. Clean color with no flecking. Spikes 55"-60" tall, with 20-22 buds on a 28"-30" flower-head and 7-8 4¼" florets open. A fine, reliable variety.	.30	.20	.15	10- .20
PENELOPE	(M 466 Deam 48)	Attractive deep lavender with a white throat. Healthy and a good propagator. 50"-55" tall, 19-21 buds, 24"-27" head, and 5" florets. Wiry stem.	.60	.40	.25	6- .25
*PERSIAN RUG	(M 586 Roberts 50)	A very attractive and different smoky. The ruffled 5½" florets are a greyish smoky red shading to rosy red and with a large cream blotch. Grew 50"-55" tall with 18 buds on a 25"-27" head and 6-7 open. One of the best 1950 introductions.	3.00	2.25	1.50	.25
PERSIFLAGE	(M 470 Jensen, N. Z. 44-51)	Clear attractive ruffled purple. Grew 53" tall with 19 buds, a 24" head and 7 4¾" florets open. One of the better purples.	- -	.40	.30	5- .25
*PHAROAH	(LM 530 Higgins 50)	Medium salmon pink, shading lighter in the throat with deep pink midribs. One of the strongest and tallest growers. Spikes were 60"-65" with 18-20 buds on a 30"-32" head. Opens 6 5¾" florets. Has made a fine record as a seedling and in its first year as a named variety.	1.00	.75	.50	2- .25
POLYNESIE	(M 530 K & M 49-50)	Light salmon with a yellow throat and a small salmon blotch. Have seen some excellent spikes with 8 large florets open. Slight tendency to streak, but has been in big demand.	2.00	1.50	1.00	.20
PRIDE OF ERIN	(EM 567 Franklin, Aus. 48-51)	Mauve lavender with a deeper blotch and a white center line. Quite different and will appeal to many. Grows 55" tall with 18 buds on a 25" head and opens 8.	- -	1.10	.75	.20

QUIBERON

SIBONEY

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
PROF. GOUDRIAAN	(M 506 K & M 50)	Lightly ruffled creamy white, shading to a cream throat. Grows 55"-60" tall with 18 buds on a 27" head and 6-8 5½" florets open. An easy grower that is a fine all-around glad.	.50	.35	.25	5- .25
PROSPERITY	(M 540 Silva 47)	A ruffled light pink Picardy sport that is somewhat similar in color to Bengasi. Grows 60"-65" tall with 19 buds on a 28"-30" head with 7-8 6" florets. Attractive and a fine grower.	2-.25	4-.25	6-.25	20- .25
PURE GOLD	(EM 412 Burns 48-50)	Clean amber yellow that opens 8 attractive 4¼" florets in excellent placement. Grows 55"-60" tall with 20-21 buds on a 25" head. A nice consistent grower and one of the best yellows.	1.25	.90	.60	2- .25
QUIBERON	(LM 416 Errey 46-49)	Probably the outstanding variety in our gardens this year. The 5" florets are a very lovely peach buff, shading to deeper salmon at the edges and to a light yellow throat. Opens 9-11 lightly ruffled florets on a 30"-32" head. Grows 65"-75" tall with 23-25 buds. Despite slight crooking and misplacement this is a top variety. Grand Champion for us at Peekskill. See picture on this page. Very highly rated in the 1950 N.A.G.C. Trial Gardens.	1.50	1.00	.50	2- .25

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
RADIANT	(LM 436 Errey 46-50)	Brilliant flame scarlet with a cream blotch. Opens 10-11 lightly ruffled 4½" florets on a medium length head. Excellent placement and attachment. Very striking and attractive.	.75	.50	.35	2- .15
RAE	(M 460 Hatch 48)	Very lovely light rose with a white lip. Grows 55"-60" tall with 18 buds on a 26" head and 6-8 ruffled 5" florets open. A beauty for the house.	.75	.50	.35	5- .25
RED ARMY	(EM 552 Moore, Aus. 46-50)	Medium brownish red shading to a deeper rosy throat. Grows 55"-60" tall with 17-18 buds on a 24"-26" head and 6-8 5¼" florets open. A very husky grower and strong propagator.	.35	.25	2-.35	10- .25
RED CHERRY	(EM 436 Roberts 46)	Lovely clear light red scarlet, deeper at the center. A strong husky grower with 6-7 5" florets on a 25" flowerhead. Spikes are 55"-60" tall. A good show variety and a fine early commercial.	.35	.25	2-.25	10- .25
RED WING	(M 436 Wright 48)	Fine clear scarlet with a slightly deeper throat. Grows 60" tall with 21-22 buds on a 28"-30" head and 7-8 5" florets open. A highly successful show glad.	1.50	1.00	.50	2- .25
REG. LEAHY	(EM 507 Both 45-48)	Greenish cream with a light yellow throat and a small dotted rosy blotch. One of the very few really attractive greenish glads. A strong husky grower 50"-55" tall with 19-21 buds on a 26" head. Opens 8 ruffled 5¼" florets. A fine show glad.	1.25	1.00	.75	2- .25
RETTA JO	(M 410 Farrington 50)	Light greenish yellow, shading deeper in throat. Attractive and a nice grower. One of the few varieties to be approved by both N.E.G.S. and N.A.G.C. Trial Gardens.	.75	.50	.35	4- .25 10- .50
<u>ROBERT ALAN</u>	(EM 412 Lorenz 49)	A beautiful clear deep yellow self. Petals are slightly recurved. One of the best deep yellows. Spikes 55"-60" tall with 20-23 buds, a 26"-30" head and 7-8 5" florets open. A strong healthy grower.	2.50	2.00	1.50	.25
ROYAL BLUE	(EM 476 Rowse, Aus. 48-50)	Medium blue with a deeper throat and a small white point at the front of the throat. A good addition to a weak class.	1.00	.75	.50	.10
*ROYAL FLUSH	(LM 552 Barrett 50)	Medium red with a little deeper throat markings. The ruffled 5¼" florets are very attractive and well placed. Grows 60" tall with 20-21 buds on a 27"-31" head and 7 open. One of the top 1950 introductions. Very fine.	5.00	5.00	5.00	1.00
RUTH ANN	(M 566 Woods 48)	Deep rosy lavender with a deeper rosy blotch. Orchid-like florets that are very attractive. Grew 54" tall with 20-24 buds on a 27"-29" head and 6-7 ruffled 5¼" florets open. A fine glad, although the stem is a little short.	3.00	2.00	1.00	.25
SALMAN'S MASTERPIECE	(LM 536 Salman 49-51)	Light salmon red with very large florets. Spikes grow 55" tall with 16-18 buds on a 27" head. Claimed to be capable of producing 8" florets.	1.00	3.00	2.00	
SCHEHERAZADE	(EM 541 K & M 50-51)	Cream shading to pink with a cream throat and a medium red blotch. Quite striking and attractive. A strong, vigorous grower with florets of heavy substance. One of the most promising new Dutch varieties.	5.00	3.75	2.50	.60
SEASHELL	(LM 540 Roberts 48)	Ranks with the loveliest pinks we have seen. Opens 6-7 large ruffled florets on a 20-bud spike with flowerhead up to 27".	.75	.50	.30	4- .25 10- .50
SEQUIN	(EM 410 Palmer 49)	Clear light yellow that opens 6 attractive 4¾" florets on a 17-bud 24" head. Considered a good prospect as an early yellow commercial.	.75	.50	.25	5- .25 10- .40

<i>Name</i>	<i>(Blooming Season-Class-Introducer-Year)</i>	<i>Description</i>	<i>Large</i>	<i>Medium</i>	<i>Small</i>	<i>Bulblets</i>
SIBONEY	(M 566 Allen 48)	This variety, which has an excellent show record, probably has the best and clearest color of the lavenderers. It opens 8 heavily ruffled 5½" florets on 26" head. Grows 52" tall with 19-21 buds. See picture on page 17.	.75	.50	.25	5- .25 10- .40
SKYWAY	(E 440 Stevens 48)	Very tall light pink shading to a cream throat. A fine clear color. Grows 60"-65" tall with 18 buds on a 27"-30" head and 6-7 5¼" florets open. Its earliness and fine spikes make it a promising commercial.	1.50	1.00	.50	.15
SOUTH SEAS	(LM 491 G. Wilson 47)	Very striking orange grey on light slate with a deep orange and yellow blotch. Despite some streaking this is an outstanding show glad and eye-catcher. Spikes this year were 60" tall with 23-24 buds on a 30"-32" head with 8 5" florets open.	1.10	.80	.50	2- .20
SPIC & SPAN	(M 442 Carlson 46)	Has definitely proven to be one of the most outstanding varieties. Opens 7-10 perfectly placed 5" florets that are a deep salmon pink. Grows 60" tall with 21-23 buds on a 30" head. A fine all-around variety.	.30	.25	.20	10- .30
SPINDRIFT	(EM 400 Chase 47)	A lovely light creamy white with a cream throat. Capable of producing huge spikes with 8 large florets on a 26"-30" head. Good exhibition variety.	.35	.25	2-.25	15- .25
STAINED GLASS	(M 470 Burns 49-49)	An excellent clear purple that has been our best purple the past 2 years. Grows 60"-65" tall with 21-22 buds, a 26"-28" head and 7-8 attractive 4¾" florets open. Very fine. An easy grower and strong propagator.	2.00	1.50	1.00	.25
STATELINESS	(M 430 Rowse, Aus. 45-50)	Attractive light pink salmon shading to cream at center, with a Picardy throat. A fine strong grower that seems to be very reliable. Spikes were 60" tall with 17 buds on a 28" head and 6 5¼" florets open.	.35	.25	2-.35	10- .25
STORM CLOUD	(LM 582 Wilson 50)	Smoky orange with a small cream blotch. The color is very clear and attractive. We only bloomed this from bulblets, but it looked very promising. One of the most attractive smokies.	2.50	2.00	—	.30
STRATHNAVER	(M 500 Peattie, Aus. 39-47)	Tall, very husky pure white with huge petals. A true giant with 6-8 plain 6" or larger florets open on a 22-25 bud, 28"-30" head. The florets are not graceful and attachment is a little loose, but it is still one of the most outstanding show glads.	.50	.35	.25	2- .15
SUNDANCE	(M 412 Almey 49)	Heavily ruffled medium yellow self. A fine grower with 7-10 5" florets of heavy substance on a 25"-28" head. Very impressive when fully open. Have had many excellent reports on it.	1.25	.75	.50	—
SUNDAY BEST	(M 560 Pletcher 50)	Very attractive light lavender rose, shading lighter to a creamy throat. Quite promising for commercial and exhibition use despite occasional flecking. Grows 50"-55" tall with 17 buds, a 26" head, and 8 plain 5¼" florets open. Picture on page 20.	3.00	2.00	1.00	.25
SUN SPOT	(M 417 Roberts 45)	Beautiful light apricot buff with a rose spot in the throat. Has made an outstanding show record and is very popular. Grows 60" tall with 18-21 buds on a 27"-29" head and 7-9 ruffled 5" florets open.	.35	.25	2-.25	10- .25
TALISMAN	(LM 430 Errey, 48-50)	Quite different and attractive buff salmon shading to a pale orange buff throat with slight red markings. A fine grower with 8-9 5" florets open on a 27" head. Some tendency to fleck.	2.00	1.50	1.00	.20

SUNDAY BEST

YANKEE LASS

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
TERRIFIC	(M 410 G. Wilson 50)	Claimed to be one of the most outstanding show glads. The $4\frac{1}{2}$ " florets are light yellow with faint pale red veining in the throat. A tall grower that opens 8-11 well-placed florets on a good flowerhead. Looked very nice.	4.00	2.25	1.50	.30
THE CHAMP	(EM 536 Carvosso 50)	The largest glad we have seen. The $7\frac{1}{2}$ " florets are well attached to a 19-20 bud spike 38" long. Grows 65" tall with seven open. Color is a clear medium scarlet self. A strong propagator and very impressive glad despite a tendency to crook.	1.50	1.00	.50	.20
TRAIL'S END	(M 562 Ficht 49)	Fairly deep rose with a light yellow throat. Attractive and a very strong grower. Spikes over 60" with 19-20 buds on a 28" head and 7 large florets open. Should make a fine show record.	1.50	1.00	.50	2- .25
TREASURE ISLAND	(M 542 Lins 47)	Very lovely medium pink shading to a cream throat. A good reliable grower that should appeal to those who appreciate the beautiful. Grows 55" tall with 15-16 buds on a 25"-27" head and 5-6 large florets open.	.40	.30	.15	10- .40

Name	(Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
TUNIA'S ARISTOCRAT	(LM 585 Both 47-49)	Large florets, blending from lilac, brown, fawn, orange, pink, and smoke to a cerise blotch. A real novelty. Opens 8 on tall spikes that should do well at the shows.	2.00	1.75	1.00	.25
TUNIA'S ATOMIC BURST	(M 590 Both 46-48)	A bronzy red, smoked lavender at the edges and clear in the center. The large florets are ruffled and quite distinctive. Opens 7-8 on a tall spike with a 26" head. One of the best smokies and well-named.	.75	.50	.25	2- .15
TUNIA'S WIZARD	(M 582 Both 47-48)	A real novelty that is very impressive. The smoky orange brown florets are huge — have measured 7½" from bulblets. A strong grower with a long head. The florets tend to face up, but are very showy.	2.50	1.75	1.25	.25
VELVET MANTLE	(M 454 Fischer 49)	Deep red with a deeper throat line. Opens 7 plain-petaled 4¾" florets of heavy substance on 55"-60" spikes with a 26"-28" head. The color is not as clear as some of the other black reds, but the growth is excellent.	.50	.35	.25	4- .25 10- .50
WAR PAINT	(EM 436 Kadel 47)	One of the finest all-around and most consistent glads we grow. The 4½" bright scarlet blooms are well placed on a 21-22 bud, 28"-30" head. Grows 55" tall and straight. A strong propagator that blooms freely from all sizes.	.50	.35	.25	4- .25 10- .50
W. H. HOSMER	(EM 466 Hatch 49)	An extremely beautiful lavender with a cream throat and a small lavender blotch. Opens 8 or more 5" florets in excellent placement on a good head. Some tendency to fleck.	1.50	1.00	.60	2- .15
WHITE CELESTE	(EM 500 Horrex, Aus. 43-49)	Light creamy white with a small cream throat and a light lavender line. Opens 6-8 large florets on a 17-18 bud, 28"-29" head. A fine strong grower with an occasional misplaced floret.	.35	.25	2-.35	10- .30
WHITE GODDESS	(M 500 Roberts 48)	Lovely ruffled white shading to a creamy white throat. Florets are 5½" in size and of heavy substance. Grows 60" tall with 20-22 buds on a 27"-30" head and 7-8 open. Strong propagator and one of the top whites for beauty and performance.	.50	.30	.20	4- .20 10- .40
*WHITE WINGS	(EM 400 Errey 45-48)	A very beautiful ruffled white that is one of the best from Australia. Produced spikes 55"-60" tall with 21 buds on a 27"-29" head and 6 large florets open. Its growth and lovely florets should make it popular. A strong propagator.	.50	.35	.25	5- .20 10- .35
WILMA DITTMAN	(M 516 Maier 49)	Pale buff shading slightly deeper in the throat with faint pink veining. A strong husky grower that opens 6-8 on a 27" head. Performance is very good, but color is not always clear.	1.50	1.00	.75	2- .30
WINSOR	(M 510 McGuire 49)	Medium yellow with a deeper throat. The lightly ruffled florets are quite large. Is an easy grower and produces good spikes.	1.50	1.10	.75	.15
WONDROUS	(EM 540 Burns 48-49)	A very large light pink with a blushed throat bordered cream. This variety is a very strong grower, growing 55"-60" tall with 18 buds on a 28" head and opening 5½"-6" florets in formal placement.	2.00	1.50	1.00	.25
YANKEE LASS	(M 440 Schenetsky 46)	A lovely clear light pink self. The spike pictured on page 20 was 63" tall with 23 buds on a 30¾" head and the florets 5¾". A strong and easy grower with excellent placement and attachment.	.50	.35	.25	4- .25 10- .50

SMALL AND MINIATURE

This year for the first time we are listing the smaller varieties separately. While we have never specialized in the small ones, we have tried to grow those that we considered the best. In general, our feeling is that a small variety should have outstanding color value, wide-open, well-formed florets, and not have a stubby flowerhead. The varieties we have selected meet these requirements and, in our opinion, are among the best.

Name (Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
ARIA (M 242 Kuhn 48)	Deep salmon pink with cream throat and white median lines in petals. Attractive and a nice grower with 17-20 buds on a 21"-24" head and 6-8 plain 3¼" florets open.	2.00	1.50	.75	.20
ATOM (EM 236 Hedgecock 46)	Scarlet with a silver edge around the petals. Extremely popular and attractive. Grows 48"-50" tall with 16 buds, a 20"-24" head and 6 3½" florets open.	.25	2-.30	3-.25	10- .25
BO-PEEP (E 241 Butt 48)	Very lovely ruffled light buff pink with a light yellow throat and a pale pink dotted blotch. Spikes 40" tall with 14-15 buds on an 18" head and 5-6 open. One of the most beautiful and nicest miniatures.	.50	.35	.20	8- .25
LITTLE GOLD (M 212 Fischer 50)	Very fine orange yellow self. Opens 5 ruffled florets on a 17"-22" head. Not the strongest growing miniature but one of the best colors.	.50	.35	.25	4- .25
*LOVELY MARY (M 232 Troyer 50)	Attractive pinkish salmon shading to a cream yellow throat. A very good all-around grower with spikes 4' tall and 16 buds or more on a 25" head.	—	1.75	1.25	.30
PEGGY ANN (E 240 Vasaturo 48)	Along with Nadia this is probably the strongest growing miniature. The 3½" florets are an attractive light pink with a cream throat. Opens 6 or more of 21 buds on a 26"-28" head. Very fine.	.35	.25	.15	5- .20 10- .35
TWINKLES (E 232 Butt 48)	Dark salmon orange at edges with a large dark yellow center and some red throat markings. The heavily ruffled florets are very striking and beautiful. Grows 35"-40" tall with 15-16 buds on an 18" head. An outstanding color.	1.00	.60	.40	4- .25

SELECTED FOREIGN VARIETIES

We have grown the varieties in this list from bulblets or small bulbs, but have not bloomed them. All descriptions are based on the most accurate information we have been able to obtain. This list and our general list contain the cream of the newest varieties from Australia, New Zealand, and Europe.

Name (Blooming Season-Class-Introducer-Year)	Description	Large	Medium	Small	Bulblets
BENARES (M 443 K & M 50-51)	A deep pink with a carmine-colored feather. Florets of heavy substance. A strong, easy grower that sounds like a fine all-around glad.	.50	.35	.25	4- .25 10- .50
DAYBREAK (M 410 Errey 49-51)	Straw or buff yellow with a somewhat deeper throat. Opens up to 10 on a long head. Highly recommended.	—	2.25	1.50	.35
MID-SUMMER (E 432 Pfitzer 50-51)	Attractively ruffled and elegantly formed deep orange salmon. Tall grower with 6-8 excellently placed 5" florets on a good spike.	5.00	3.75	2.50	.60
OVERTURE (540 Errey 49-51)	Lightly ruffled pink shading to a lighter throat. A tall, strong grower with up to 10 open on a good show spike.	—	2.25	1.50	.35
ROYALTINA (583 Evetts, Aus. 47-51)	Salmon apricot flecked slaty brown at edges and with a purplish feather on a light orange blotch. Very strong grower with large florets in formal placement.	—	.75	.50	2- .25
SEAGULL (470 Errey 49-51)	An unusual shade of pale silvery cyclamen purple, shading deeper in the throat. Opens 8-10. An easy grower with commercial possibilities.	—	—	1.00	.30
